online playgrounds

Why Choose Online Playgrounds

Your Complete Outdoor Play Solution

We are a family run business in the Cambridgeshire Fens who have been designing, manufacturing and installing our exciting, innovative and stimulating play and fitness equipment for 30 years.

Design

Our in-house designers work with you from product concept through to project design to get exactly the playground or fitness trail you are looking for.

Manufacture

The majority of our products are made on site by our team of skilled craftsmen utilising the latest robotic CNC technology. Control systems (ISO9001) and Health & Safety Management (ISO45001) are also in place to enable us to monitor the whole manufacturing and installation processes from start to finish.

Install

Our full installation service from our in-house team comes with years of knowledge of our products. They have the experience to ensure your new playground or fitness trail is constructed to the required safety standards and on time.

Maintain

All our playgrounds come with a 1 year free operational inspection. We also have an in-house maintenance team who can provide a no obligation quote on any manufacturers playground equipment or inspection report. We can then come out and complete the required remedial works.

Parts

If you require replacement parts for your equipment, we have thousands of in stock products available to purchase from our website. We offer a complete net and rope repair/replacement service and wetpour surfacing repair kits alongside a huge variety of other components, many available for next day delivery.
