

FIRST FLOOR PLAN

GROUND FLOOR PLAN

SECTION B - B

SECTION A - A

NOTES:
The drawing is intended to convey an impression only and does not purport to contain a full specification of its scope. It is solely for the purpose of obtaining Planning and Regulation approval.
The drawing must not be used as a contract document alone. All dimensions must be taken from actual work. Under no circumstances are measurements be scaled from the drawing for construction or ordering purposes.
All work, materials etc. be checked on the building/development and any discrepancies be reported to the Architect.
The Architect will be supplied or supplied on site by each of the representative trades, to the extent and for the purpose of enabling agents reasonably to control workmanship, selection of materials, compliance to specification, variations on drawings etc.

DIMENSIONS:
DO NOT SCALE from drawings. Figured dimensions are to be worked to in preference to scaled dimensions.

STRUCTURE:
The structure is to be new, unless otherwise stated, and is to be designed and prepared by Engineers who is to be used fully and carried out in strict accordance with manufacturers instructions and relevant codes of practice.
Timbers are: Softwood to appropriate British Standard Specification or BBA Certificate or European Code equivalent

-Ext- & SURF-
The Architect will not be responsible for the defective construction & workmanship of any product & materials necessary for the same and for their fitness for the purpose intended, or for any failure to comply with the Construction Design and Management Regulations by Independent Planning Supervisor will be required.

STAGES OF THE WORKS:
The following stages of the work is given on the drawings are, should work not be specified, a brief description of the work required to be inspected by the Building Inspector at the various stages of the works as he deems to be notified.
