1/50 & 1/100

DO NOT SCALE FROM THIS DRAWING
This drawing is copyright and may not be sheked, traced, photographed or used for any other purpose other than for which it is issued. The General Contractor is to check all dimensions on site and report any discrepancies to the Architect. All details shown in this drawing including foundations are based upon typical site conditions stated however this is not to be accepted for any unusual site conditions which may be discovered during construction, unless reported to the Architect or that assumption specific site conditions being founded on are incorrect. This drawing is limited to the design information contained and does not purport to contain a full specification of the works, it is only for the purpose of obtaining Planning, Building Regulation approval. This drawing is not to be used for construction purposes unless signed by the Architect or any representative thereof, it is the client or their appointed agents responsibility to ensure that all relevant parties are in possession of the latest revision of this drawing. Materials shall conform to appropriate British standard specification or B&A certificate or European standard etc., in strict accordance with manufacturers instruction and relevant code of practice. Materials to be new unless otherwise stated and all connections and methods are to be used fitted and installed in accordance with manufacturers instructions. Dimensions to be checked on site before commencing any work or making shop drawings. Figured dimensions are to be taken in preference to scaled dimensions. Any discrepancies are to be notified to the Architect & Engineer before proceeding with the relevant work. The Contractor is to allow for all temporary bracing and shoring as necessary to ensure the stability of the structure during construction. The Engineer / Client is advised that should the works need to vary from the details shown on this drawing the Engineer must be notified before proceeding with the variation. The Contractor is responsible for obtaining all necessary approvals from the Building Control Officer and other statutory authorities and for complying with the Construction (Design and Management) Regulations 2015 where applicable. Building Regulation Approval is required for the works shown on this drawing. Any discrepancies are to be notified to the Architect & Engineer before proceeding with the relevant work. Do not scale from this drawing. Dimensions are in millimetres unless otherwise stated. Any variations from the details shown on this drawing must be approved by the Architect & Engineer before proceeding with the relevant work. All dimensions to be checked on site before proceeding with the relevant work. Any discrepancies are to be notified to the Architect & Engineer before proceeding with the relevant work. This drawing is to be read in conjunction with all relevant Engineers and Specialists drawings and details. Any work shall be executed in accordance with the Building Regulations and to the satisfaction of the Local Authority Building Control Officer. All dimensions are in millimetres unless noted otherwise. Do not scale from this drawing. Any discrepancies are to be notified to the Architect & Engineer before proceeding with the relevant work. This drawing is to be read in conjunction with all relevant Engineers and Specialists drawings and details. Any work shall be executed in accordance with the Building Regulations and to the satisfaction of the Local Authority Building Control Officer. All dimensions are in millimetres unless noted otherwise. Do not scale from this drawing. Any discrepancies are to be notified to the Architect & Engineer before proceeding with the relevant work. This drawing is to be read in conjunction with all relevant Engineers and Specialists drawings and details.
