PARCEL NUMBERS AND ACREAGES

The number and acreage of each parcel of land is shown within the parcel. It is important when identifying a parcel to specify the number as well as the plan on which it falls.

IN PARCELS DIVIDED BY THE SHEET EDGE, THE ACREAGES ARE SHOWN TO SHEET EDGE ONLY.

To convert acres to hectares multiply by 0·40468
To convert hectares to acres multiply by 2·47104
