PROPOSED EXTENSION & ALTERATIONS AT SUTTON HOUSE HIGH STREET LONG SUTTON LINCS

for MR & MRS H MIDDLETON

DO NOT SCALE FROM THIS DRAWING
This drawing is the property of the Architect. The contents of this drawing are not to be used or loaned without consent. Any discrepancies found in this drawing should be reported to the Architect before proceeding with the work. No responsibility can be accepted for dimensions taken from scaling this drawing. Any variations from the drawing must be approved by the Architect before work proceeds. Any design amendments may be necessary after the commencement of the construction. Site and service information is indicative only and should not be relied upon. Existing site and service information should be verified by the Contractor before commencement of any work. Any discrepancies must be reported to the Architect immediately. Dimensions are not to be taken from the drawing. All dimensions are to be checked on site by the Contractor before any work is put in hand or any materials or goods are ordered. Any work executed by the Contractor before receipt of approval shall be entirely at the Contractor's own risk. The Contractor is responsible for the adequacy of all temporary and permanent works and for the safety of the building during alterations. The Contractor is responsible for ensuring that all sub-contractors comply with the requirements of the Health and Safety at Work Act 1974 and any other relevant statutory requirements. The Contractor is responsible for obtaining all necessary approvals and for giving all notices required by any statutory undertaker. Any proposed variations from the approved drawings must be submitted to the Architect for approval before work proceeds. The Contractor is responsible for co-ordinating the work of all sub-contractors and ensuring adequate liaison between them. The Contractor is responsible for providing adequate temporary support to the existing structure during alterations. The Contractor is responsible for ensuring adequate precautions are taken to prevent trespass onto the site. The Contractor is responsible for providing adequate insurance cover in relation to the works. The Contractor must allow adequate space for the Architect to carry out inspections at various stages of the work. The Contractor must give adequate notice to the Architect when requiring any inspection. Work that may not be inspected at the correct time may be required to be opened up for inspection at the Contractor's own expense. Do not scale from drawings. Figured dimensions only to be taken. Any discrepancies to be reported to the Architect. Copyright Act 1956, as amended by the Copyright, Designs and Patents Act 1988. All rights reserved. Unauthorised reproduction or use of this drawing may lead to prosecution or civil proceedings. Work to existing buildings: Existing dimensions and construction are approximate only. Further opening up may be necessary. Structural alterations may be required to suit existing conditions. Existing services may require diversion. Existing drainage may require alteration. Work to party walls: Party Wall etc. Act 1996: when building or close proximity to adjoining neighbour's boundaries. Work to party walls may require the service of notices on adjoining owners. Party Wall Act 1996 affected by the work. The General Contractor must be Asbestos Aware in the latest codes of practice
