DO NOT SCALE FROM THIS DRAWING

This drawing is the property of the Designer. Prior consent in writing must be given before any other person makes use of this drawing for any purpose other than that for which it is intended. No responsibility can be accepted for dimensions that are not specifically stated in figures. No responsibility can be accepted for any work carried out or materials used prior to the issue of Building Regulations approval. Dimensions are approximate and must be checked on site by the contractor responsible for the accuracy of dimensions and construction prior to commencement of the work. It is the responsibility of the contractor to ensure that all work and materials comply with the current edition of the Building Regulations and all other statutory requirements. This work, and the ownership of intellectual property rights in it, is protected by copyright and other intellectual property laws and treaties. Unauthorised use of this work may violate such laws and give rise to civil and criminal liability. Unless you have received express written permission from the copyright owner, you may not copy, distribute, display, perform, or create derivative works based on this work. Any Building Control Approval Drawings and Specifications are issued on the understanding that all relevant specialists will be employed by the client to carry out the structural design of the building in accordance with the Building Regulations. Any Structural Details shown are for guidance only and are not to be used for construction purposes unless specifically stated. Where Structural Details are issued for construction purposes they must be checked and verified by a qualified Structural Engineer. Where Party Wall Etc. Act 1996 applies to this project, it is the responsibility of the Client to serve notice on adjoining owners. Drainage details are shown for illustrative purposes only. Drainage layouts must be checked and verified by a qualified drainage specialist. Where Drainage Details are issued for construction purposes they must be checked and verified by a qualified Drainage Engineer
