Reason: The application was submitted in outline only.

3 The approved scheme of landscaping and/or screening shall be carried out in its entirety within a period of two years beginning with the date on which development of the land is commenced. The trees, shrubs or bushes shall be adequately maintained by the owner(s) of the land on which they are situated for a period of ten years beginning with the date of completion of the scheme, and all losses shall be made good during that period.

Reason: In the interests of visual amenity and to ensure that the approved scheme is implemented satisfactorily.

4 Within 3 months of the date of occupation of the new dwelling the existing cottage upon the site shall be demolished and associated rubble cleared from the site.

Reason: The site is in an area where it is currently the policy of the Local Planning Authority not normally to permit additional residential development. The proposed development is a replacement dwelling and this condition is imposed because a departure from housing policy is not warranted.

5 Before the access is commenced to be used, provision shall be made within the site to the satisfaction of the Local Planning Authority for a motor vehicle to turn to enable it to enter and leave the highway in forward gear.

Reason: To enable vehicles to enter and leave the highway in forward gear in the interests of road safety.

6 Development shall not commence until details (including a percolation test) have been submitted to and approved in writing by the Local Planning Authority demonstrating that ground conditions and the area of land are suitable to accommodate septic tank drainage. In the event that this cannot be proven a package treatment plant shall be installed in accordance with details to be submitted to and approved in writing by the Local Planning Authority. The dwelling hereby approved shall not be occupied until the drainage works have been completed in accordance with the approved details.

Reason: To ensure the provision of satisfactory foul drainage.

The determined plans are:
