DO NOT SCALE FROM THIS DRAWING

This drawing is copyright and may not be shown, reused, photographed or used for any other purpose other than that for which it is issued, to the General Contractor or to check all dimensions and report any discrepancies to the Engineer. All details shown on the plan are approximate. Boundaries are based upon typical site inspections related to the area. No responsibility can be accepted for abnormal conditions which may not be discovered during normal site surveys. Levels are to ordnance datum and are based upon spot heights and may be approximate. Site soil survey details are unknown and the accuracy of boundaries is estimated. Specific site conditions have not formed a part of the design and it is the contractors responsibility to ensure that the site conditions believed to exist are those which actually exist. The drawing is limited in the amount of information contained and does not purport to comprise a specification of the works. It is solely for the purposes of obtaining Planning / Building Regulation approval. The drawing must not be used as a contract document, tender document or for construction purposes. This drawing may not be altered or any representations thereof. It is the client's responsibility to ensure that all necessary consents, approvals and agreements are obtained and that all contractors are aware of and comply with the requirements of the Planning Consent, Building Regulations Approval, conditions and agreements. Any discrepancies found on site or inconsistencies between this drawing and site conditions should be reported immediately to the Engineer. Any variations, omissions or discrepancies must be agreed with the Engineer before proceeding with the work. Figured dimensions are to be taken in preference to scaled dimensions. Contractors must verify all dimensions on site before commencing any work or shop drawings. Any discrepancies are to be reported immediately to the Engineer. Any variations from the approved drawings must be agreed with the Engineer before proceeding with the work. Figured dimensions are to be taken in preference to scaled dimensions. Contractors must verify all dimensions on site before commencing any work or shop drawings. Any discrepancies are to be reported immediately to the Engineer. Any variations from the approved drawings must be agreed with the Engineer before proceeding with the work.
