Our Ref. RS/PA-B/302/93/JAM

Date 21 April 1993

Dear Sir,

FULL PLANNING APPLICATION - KITCHEN EXTENSION
SUDBROOKE HOUSE, BACKGATE, COWBIT

The South Holland District Council's Director of Planning and Building Control Services has informed me that you have submitted an application seeking permission for development at the above location. The submitted details have been inspected and whilst my Board's interests would not seem to be directly affected I set out below general advice for your consideration and attention.

The watercourse along the sites Northern boundary that forms a vital link in local drainge is privately owned and maintained by the riparian owners.

I understand that soakaway drainage systems are intended for the disposal of roof water run-off and I would suggest appropriate tests be undertaken to ensure the subsoils are suitable and that such soakaway systems will function adequately.

In the eventuality that roof water soakaways are not to be installed, full details of the route and quantity of run-off for surface water disposal will be required for my prior approval.

The riparian owners consent must be obtained prior to any filling being undertaken or extra stormwater run-off discharged to the private dyke. Prior to such works being undertaken however full details must be provided for my Board's approval in order I can ensure existing drainage interests will not be affected. Should improvements be required to privately owned dykes to cater for increased flows from the development such works must be carried out at the applicants expense following my Board's approval of details.

You are advised that it is my Board's policy to seek a contribution where increased run-off is directed into any arterial system within the District. This course of action has been taken to ensure the Board's main drains are uprated to cater for increased flows from expanding developments.

The contribution rate is currently £7,040 per acre of new impermeable surface drained via a direct outfall and subject to engineering and administration fees as set out in the following scale, and V.A.T., although these figures are subject to periodic review.

Your Ref: RS/PA-F/302/93/JAM Our Ref: 21 April 1993

The Engineering & Administration Fees are:-

Contribution	Percentage Fee
up to £25,000	15%
£25,000 to £100,000	12.5%
over £100,000	10%

MINIMUM CHARGE £35

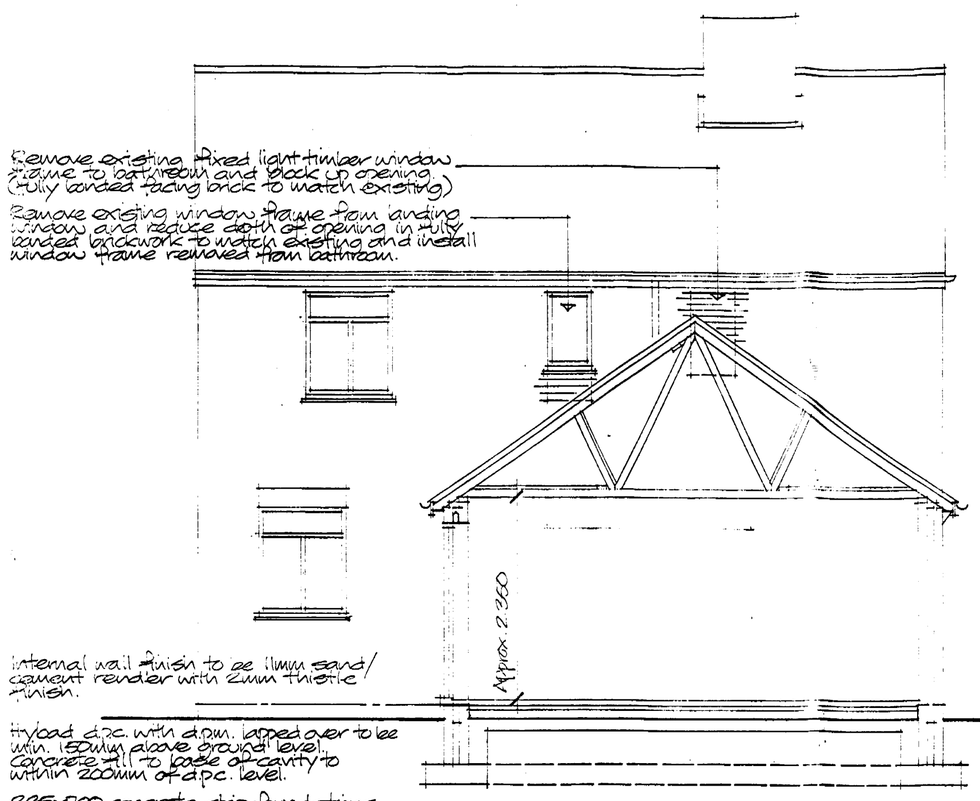

A copy of this letter is being forwarded to the Director of Planning in order he is aware of my observations.

Yours faithfully,

J J Ebsey
