

10 September, 1999

Reference: proposed works to listed mill building at the above address.

Justification for the said works is as follows: -

1. Enhanced visual improvement to the existing brickwork of the adjoining building attached to the first and second floors to the rear of the mill tower.
2. New and more convenient usable space would be created.
3. The choice of brick would match not only the existing mill tower but also the new garage complex and extensions to the house, which have already been constructed.

Edwina Little (Mrs).
