COMMENTS

24 November 2010

Dear Mr Fidler

LOCATION: Crease Drove, CROWLAND
PROPOSAL: Discharge of conditions 3 and 4 (Drainage)

I refer to your letter dated 12 November in connection with the above and wish to make the following observations: -

H02-0486

Condition 3 relates to surface water which is not discharging to a public sewer; therefore we will have no comment to make.

Condition 4 relates to foul water disposal, Anglian Water have approved an application under Section 106 of the Water Industry Act 1991, therefore we will have no objections to the partial discharge of this condition. The reason for recommending partial removal is that the second part of the condition relates to the approved drainage works being implemented and approved in order to satisfy the condition.

H02-0027

Drainage condition 3 relates to the disposal of surface water, as surface water will not be discharging to public sewers, Anglian Water will have no comment on this aspect.

Condition 4 relates to foul discharge, to date Anglian Water have not received a Section 104 or Section 106 application, therefore the condition should remain.

If any further information is required concerning the above, please do not hesitate to contact me on 01733 414570

Yours sincerely

Keith Simpson
