Dear Sir or Madam,

18th February 2015

I enclose the three copies of, and of all supporting information, for my resubmission of House Holder Planning Application, originally numbered h-02-0536-14, as my so called 'free go'.

I enclose with each copy asite plan, location of letters of support and petition signatories, and appropriately signed certificates.

The sole reason for refusal last time concerned height and possible overlooking of neighbouring gardens and properties. The response from surrounding neighbours of ours refutes this.

In the event of their being remaining genuine concerns and uncertainties, we would be prepared to consider a temporary permission for, say, five years to gauge any opinions and possible problems, or for the permission to be for the benefit of our own family and visitors alone, specifically for the duration of our occupation of the property.

We look forward to hearing from you in due course.

Yours sincerely,

Pawel Fokt

(Pawel Fokt)
