Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

This new application seeks approval of the retention of the existing static caravan as described in the 2019 granted application H02-0865-17, noted in Condition 2 as expiring on 25 July 2024 unless validity extended (which the site owner, not the tenant applicant, failed to do). All original plans and site information and the description of the caravan from that application remain valid, to my knowledge, and are incorporated in this new application (N.B. - for the 'change of use' dates below, the first date after the expiration of validity has been used as it was approved until that date). This new application seeks planning approval of the same static caravan as described in the 2019 application which has not changed except for new paint and maintenance, basic repairs to keep it in safe usage as a storage facility and a refuge for staff during inclement weather; there is no heating or toilet facility and no running water; although initially approved as an 'office' in 2019, it functions presently as a shed which houses the water pump and wash equipment essential to the car wash business (which is the only car wash in or near Crowland, and so a vital business to the area). Applicant seeks retention of the existing caravan and is willing to make any further repairs seemed necessary or advisable following an inspection by the Council.

All new application questions regarding Biodiversity, flood risk, greater site information, employees etc. remain the same as in 2019 and so all Refernce supportitng documentation is hereby incorporated to address those requirements (where the online application did not allow for explanation. In short, this application seeks only approval of the existing static caravan (which has been maintained and repaired) which, essentially, houses the car wash equipment and machinery. The tenant applicant understood the approval had been extended by the site owner and upon learning (from the Council enforcement officer) that permission was not extended in July 2024, is happy to submit this new application and make any repairs or aleration as the Council directs to ensure that Crowland's only car wash can continue in operation.
