Job Ref.	Drawing No.
857/05	PLOTS 22,23&24 / 2
Date: MAR 2005	Drawn: JPW

Scales
1/50 1/100

DO NOT SCALE FROM THIS DRAWING
This drawing is copyright and may not be used, reused, photographed or used for any other purpose other than that for which it is issued. The Client or Contractor is to check all dimensions on site and report any discrepancies to the Architect. All levels shown on the drawing, including foundations are based upon typical or assumed datums. The Architect is not responsible for any work executed from dimensions taken from this drawing. The Architect is not responsible for any work executed under the supervision of the Contractor or his sub-contractors unless reported to the Architect before the commencement of the works. The Architect is not responsible for any unforeseen ground conditions which may be discovered during construction unless reported to the Architect and the design subsequently revised. The Architect is not responsible for any errors or omissions in respect of foundations to excavations, boundaries, party walls, drainage, services or any other work carried out before the commencement of the works. It is always the Contractor's responsibility to ensure that all setting out and dimensions are correct. This drawing must not be used for construction purposes unless it is signed by the Building Control Authority. This drawing is not to be used for the purposes of tendering unless it is signed by the Client or their agent. The Architect is not responsible for any errors or omissions in documents prepared by a Quantity Surveyor, Engineer, Builder or their appointed agents. Any responsibility to control and coordinate all activities of tradesmen, subcontractors or specialists, whether or not nominated, rests with the Contractor.
All materials to be new unless otherwise stated and all workmanship, and materials etc. to be used fitted and installed etc. in strict accordance with the manufacturers instruction and relevant code of practice. Alternatives shall conform to appropriate British, European specification or BSI certificate of European code. The Employer/Client who ensures that the asbestos survey is in accordance with and adopts all measures necessary to achieve compliance with Asbestos (Licensing) Regulations 1983 and any subsequent amendments. The Employer and Client acknowledge that they will be responsible for the safety of persons entering the site and will comply with the Construction (Design and Management) Regulations 1994 and any other Statutory Regulations or Approvals as may be required. The Contractor is responsible for ensuring adequate temporary bracing and support to the structure during the course of the works. Where existing walls are to be underpinned, the Contractor is responsible for ensuring adequate temporary bracing and support to the structure during the course of the works. Where existing walls are to be underpinned, the Contractor is responsible for ensuring adequate temporary bracing and support to the structure during the course of the works.
