DO NOT SCALE FROM THIS DRAWING

This drawing is copyright and may not be altered, traced, photographed or used for any other purpose other than that for which it is issued. The Contractor is to check all dimensions on site and report any discrepancies to the Architect before work is commenced. The Contractor is responsible for ensuring that all work complies with the requirements of the Building Regulations and any other statutory requirements. Any variations to the drawings issued are to be agreed in writing with the Architect before work is commenced. Drawings are not to be scaled for the purposes of construction. Any discrepancies are to be reported to the Architect before work is carried out. This drawing is limited in the extent of work, information and details shown and cannot be construed as a specification of the works. It is issued for the purpose of obtaining tenders and building regulation approval. The drawing must not be used as a detailed construction guide. The work will not be subject to inspection by the Architect unless specifically instructed by the Client. It is the Client or their appointed agents responsibility to appoint a competent contractor, sub-contractors or tradesmen, as appropriate, to carry out the works.

All materials to be new unless otherwise stated and all components and materials etc. to be used fixed and assembled etc in accordance with manufacturers instructions and relevant code of practice. All timber shall conform to the minimum British standard, a certificate of which shall be produced by the Contractor if requested by the Architect. The Contractor shall ensure that the weather, commencing at any time during the progress of the works, necessary to achieve compliance with Health and Safety Regulations and the Building Regulations. The Contractor shall be responsible for ensuring that adequate temporary bracing is provided to all parts of the structure as required. The Contractor shall ensure that the work is carried out in a workmanlike manner and that adequate supervision is provided at all times. The Contractor shall be responsible for ensuring that all work complies with the Construction (Design and Management) Regulations and any amendment thereto. Suspended work will be required. The Contractor shall be deemed to have allowed for all that is shown on the drawings and/or described in the specification. Work that may not specifically be shown but may be reasonably inferred as necessary to carry out the works shall be carried out to the satisfaction of the Architect.
