DO NOT SCALE FROM THIS DRAWING
This drawing is the property of Julian Warrick Consultancy and is not to be used for any purpose other than for which it is intended. The Planning Consultancy accepts no responsibility for any work based upon figures scaled from this drawing. No responsibility can be accepted for dimensions that are taken from illegible or poor quality copies of this drawing. Any discrepancies must be reported immediately to the design practitioner. This drawing is to be read in conjunction with all relevant engineers drawings and specifications. Any such drawings are to be checked for accuracy of dimensions on site and any discrepancies brought to the attention of the Planning Consultancy before any work is put in hand. The Planning Consultancy accepts no responsibility in respect of any work carried out from this drawing by any other parties. This drawing is the property of the Planning Consultancy and is protected by the Copyright, Designs and Patents Act 1988. It is not to be loaned, copied or passed to any third party without the written permission of the Planning Consultancy. Any breach will be pursued. Any dimensions relating to existing buildings or boundaries are approximate only and are taken from the Ordnance Survey map. The scale bar is the dimension of record. Do not scale from this drawing. Any work undertaken by the contractor is to comply with the Building Regulations 2010 and all subsequent amendments, all relevant British Standard Codes of Practice and all other statutory regulations. The Contractor is to be responsible for obtaining all necessary approvals from the appropriate authorities and is to give all notices and pay all fees required by any statutory undertaker in connection with the works. The Contractor is to be responsible for ensuring adequate temporary bracing and support to the structure during construction. Before commencement of any excavation the Contractor is to check the position of all services. Any damage caused to any services during the course of the works is to be made good at the Contractors own expense. The Contractor is to be responsible for the safety of all persons employed within the site and shall comply with the Construction (Design and Management) Regulations as implemented 2007 and all other relevant statutory regulations relating to safety. The Contractor is to allow for the cost of complying with any requirements or recommendations of the Local Authority Building Control Officer and the Fire Officer. Work that may not specifically be shown is to be of a workmanship standard commensurate with the rest of the work described. Materials are to be used strictly in accordance with the manufacturers recommendations. Party Wall etc. Act 1996: when building is close proximity to adjoining neighbours boundaries, you must serve notice on adjoining owners at least two months before commencement of any work affected by the works. The General Contractor must be Asbestos Aware to the latest codes of practice.
