Dear Sir,

EXTENSION TO DWELLING 10 ABBEY WALK

In reply to your letter of 27th March relating to a proposed conservatory extension. At this stage I am unable to state categorically whether or not planning permission will be required for the proposed extension. I have however enclosed an extract from the Town and Country Planning General Development Order which sets out the criteria for assessing when permission will or will not be required. The relevant parts have been highlighted.

In relation to this I can advise that the 50 cubic metre allowance is cumulative and would take into account any previous extensions to the dwelling. Therefore, if the dwelling has been previously extended, the cubic context of that extension should be added to the new works, and if the total is greater than 50 cubic metres, then permission will be required.

The cubic content is calculated using external measurements and should include roof space.

I hope this is of assistance.

Yours faithfully

Dear Sir,

Further to our telephone conversation, I would like to confirm that the section of wall we want to remove is the part marked in red on the drawing. As discussed this is to allow our property to stay dry & treat our external wall, when this work is complete we will rebuild the wall.

Should you require any further information, or wish to visit the property please do not hesitate to contact us.

Dear Mr Capper,

DEMOLITION: AT 10 ABBEY WALK.

Thank you for your letter of 11th August 1993 relating to the above development. At this stage my preference would be for reclaimed pantiles. However if these are not available when required the use of new pantiles may be acceptable.

I regret however that the change is not something that can be sanctioned by a straightforward exchange of correspondence. It will be necessary for you to submit a formal application under Section 73 of the Planning Act to vary the wording of the condition to permit the use of new pantiles. Forms are enclosed for this purpose.

I can however confirm at this stage that the mortar mix specified is acceptable. I hope this is of assistance and apologise for the time taken in responding to your letter.

Yours faithfully

Dear Sir,

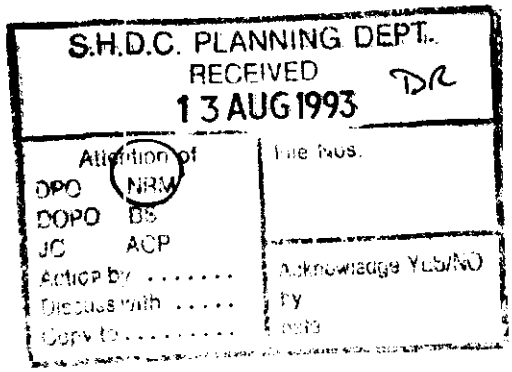

Further to our telephone conversation of 9th August, we would like to confirm that we may be unable to obtain reclaimed pantiles and therefore have to fit new tiles.

Regarding the mortar mix for the rebuilding of the wall, having spoken to our building contractor he has advised us that a suitable mix would be 12 part sand, 2 part lime and 1 part cement.

Could we please have your written approval on both matters before we commence work.

Yours faithfully,

APPLICATION REFERENCE: H02/0487/93 DATE RECEIVED: 04-JUN-93

TYPE: Conservation Area Consent

DESCRIPTION: Remove unfinished first floor extension and boundary wall

LOCATION: 10 Abbey Walk, Crowland.

APPLICANT: Mr & Mrs R J Capper AGENT:

REASON FOR COMMITTEE CONSIDERATION

Parish Council objection.

Date 13 JUL 1993

RECOMMENDATION

That Conservation Area Consent be granted subject to conditions.

COMMENTS

1 The site occupies a prominent position in the Conservation Area. Works involve demolition of first floor of unfinished extension and reinstatement with lean too pitched roof, and demolition of a 7 feet long section of stone boundary wall.

2 The wall forms part of a continuous frontage feature and is of considerable significance to this part of the Conservation Area.

3 Permanent loss of the wall should not be sanctioned, but in this case it is intended for it to be re-built, after the intervening cavity between it and the dwelling has been cleared, and the flank wall of the dwelling has dried out: the cavity between the two walls is presently full of debris and is causing damp in the main dwelling.

REPRESENTATIONS

Parish Council:

1 Strongly support the removal of the first floor extension, which is an eyesore.

2 Strongly object to the demolition of this historic stone wall which is part of the character of the area. The wall continues from Abbey Mews along Thorney Road to the Health Centre.

Applicant: Demolition of wall is to allow our property to dry out and treat the external wall. When this work is complete we will rebuild the wall.

SCHEDULE OF CONDITIONS

1 The area of exposed wall and roof shall be made good in accordance with details to be agreed with the Local Planning Authority and all re-roofing and new roofing shall be carried out using reclaimed pantiles to match the existing.
Reason: In the interests of safeguarding the visual amenities of this part of the Crowland Conservation Area.

2 The section of boundary wall shall be carefully demolished and all stones carefully stored and numbered for re-use. Within a period of ~~two~~ one year, commencing with the date demolition works are commenced, the stone wall shall be rebuilt with all stones laid and coursed in their original position. The mortar mix and pointing shall be in accordance with details to be agreed with the Local Planning Authority.
Reason: In the interests of safeguarding the visual amenities of this part of the Crowland Conservation Area.
