

Architectural elevation drawing of the proposed development at Croilands. The drawing shows a long, low-profile building complex with various sections and materials. Key features include:

- existing poultry shed gables to be overlaid with stained timber boarding** (leftmost section)
- TENT DISPLAY BUILDING** (second section from left)
- dark green profiled metal cladding and rainwater gutters to new arcade building** (third section from left)
- NEW TENT DISPLAY ARCADE** (fourth section from left)
- MAIN ENTRANCE** (fifth section from left, featuring a small gabled structure with a sign that reads "CROILANDS CRAFT & CULINARY")
- stained timber framed glazing and entrance doors** (sixth section from left)
- existing poultry shed gables to be overlaid with stained timber boarding** (seventh section from left)
- WORKSHOP, ADMIN AND ACCESSORIES** (eighth section from left)
- PERIMETER ROADWAY** (ninth section from left)
- SECURE CARAVAN STORAGE COMPOUND** (tenth section from left)
- BIOMASS BOILER AREA** (eleventh section from left)

Materials and finishes specified in the drawing include:

- light grey profiled metal roofing to new arcade building
- stained timber boarded gables
- stained timber fire escape door
- stained timber fire escape / operational doors
- stained timber clad posts
