Sheet and six figure grid reference of proposed development Sheet Landranger . Map no. 131 Grid Reference E522850 N310610

3. PURPOSE OF DEVELOPMENT

Due to subscriber demand, this installation is required to provide Vodafone with mobile telephone coverage along the A1073 and the Crowland Area.

Forming part of the national network, this installation is an integral part of Vodafone's coverage of the above-mentioned areas. (refer to the before and after coverage plots attached).

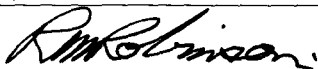

The site has been selected because of its location onto an existing water tower that currently has existing telecommunication antennae at the top and its location removed from the Crowland area. (see planning commentary attached).

- | | | |
|-------|--|--|
| (i) | Type of structure (e.g. tower, mast, etc) | Rooftop installation onto existing water tower. |

PLANNING COMMENTARY

The subject site was selected as it utilises an existing infrastructure, namely the Anglian Water Tower rooftop by mounted off the side of the existing water tower and concentrates development where there is an existing Orange and Cellnet installation.
