Application H02-0626-17
Location DECOY FARM SPALDING ROAD CROWLAND
Proposal Details of contamination scheme, external materials and windows and doors (conditions 3, 4, 5 and 6 of H02-0299-17).

Name J Reith
Address Environmental Health Technician Safety and Environment

Date Submitted 04-08-17
For/Against Comments

The Preliminary Geo-Environmental Risk Assessment Project No. 17-0553.01 by Delta Simons dated June 2017 satisfies the contaminated land condition. I would ask for the following note:

In the event that contamination is found at any time when carrying out the approved development that was not previously identified it must be reported immediately to Environmental Health. An investigation and risk assessment must be undertaken in accordance with details to be agreed with Environmental Health. Where remediation is necessary, a remediation scheme must be submitted to and approved in writing by Environmental Health. Following completion of measures identified in the approved remediation scheme a verification report shall be submitted to and approved by Environmental Health.
