Description of Proposed Works

Please describe the proposed works

Installation of up to 26 solar panels on the flat roof extension known as Garden Cottage, which was constructed in 2017. Solar panels will be mounted on to flat roof with metal frames and angled to face south. The building itself is south-east facing. Battery storage will be added and located within the utility room of Crawford House. The solar panels will generate electricity for Crawford House, The Stables and Garden Cottage and will also be connected to the grid to export surplus electricity.

Installation of cast iron stove in snug/hallway within Crawford House in former Inglenook fireplace which was previously removed, and chimney sealed. It is proposed that the Inglenook is reinstated, and a traditional stove used to form a working fireplace once more.
