Key:

Removal of a small number of panels at the southern section of Field 1 to reflect operational adjustments.

Removal of the westernmost field of panel arrays (immediately northwest of Field 2 on submitted layout PPP027.301.02), which will not be developed as part of the scheme.

Introduction of solar panels in Field 3. Although the latest approved layout (H02-0606-18) does not show panels in this area, Field 3 is shown within the approved block plan (H02-0454-14), and the principle of development has been previously established.
