Our aim is to establish a total solution for children that embodies quality, trust and integrity. Our comprehensive range of provision includes emergency placements, a quality fostering provision, a specialist care facility for young people with multi-faceted problems as well as our traditional established single sex, Residential & Education provision.

Contact us with a problem and we will suggest a solution. We will become your total solution resource.

Just when my body felt broken and bruised,
Nothing could ease all the pain,
Just when my whole world was falling apart,
You put me together again.

You were the only one to help me carry on,
Help me find hope and desire,
All that I want is to stay here with you,
With all that we've been through,
You make me want to try.

And deep in my soul I know,
You gave me room to grow,
Made me let go of the past,
You gave me dignity,
Showed me the way to be,
You believed in me,
You gave me wings to fly.

Just when the music started to fade,
Just when my words wouldn't rhyme,
Just when my colours were all turning grey,
You changed them and made them shine,
Just when I needed the chance to believe,
Just when I needed to care,
Just when I needed someone to love,
You came and answered my prayer.

"I think this describes Sedgemoor well."
