

SEDGEMOOR

The aim of our work at Sedgemoor is to empower the young people in our care with the strength to grow and develop by giving them the support, education and compassion that they need for their futures.

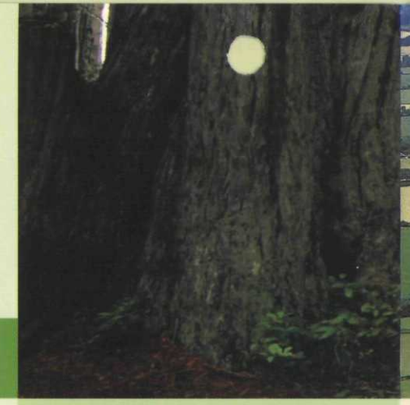

It is through this belief and a strong professional orientation that we are able to overtly state our expectations; that previously unchallenged behaviours such as non-school attendance, violence, substance abuse, self-harm and lack of commitment to change, are not acceptable at Sedgemoor. Whilst being a powerful statement of expectations and outcomes, our stance remains optimistic because we know that individuals can take control of their behaviour, and if they do, then at Sedgemoor, with all the environmental and personal support on offer, we insist they do!
