

RESIDENTIAL CARE

Sedgemoor recognises the needs of individuals and has established creative and distinct residential care packages that are tailored specifically to the needs of each young person via an individual Placement Plan.

We want the young people in our care to develop and integrate both personally and socially, to be confident and able to cope with the stresses and successes of life. We consider it our responsibility to help each individual attain these goals.

A wide range of residential options is offered with an emphasis on quality "remedial parenting" with access to a wide range of support structures and direct therapeutic interventions.

Residential options can be full-year or term-time only placements with statutory review profiling throughout. The network of residential provision currently includes satellite houses, emergency placement and residential outreach.

Single Sex Specialist Care for Boys

A service for young people who have additional difficulties to EBD. These might be conditions such as Aspergers Syndrome, A.D.H.D, or Brain Injury.

We are also able to meet the needs of hearing impaired young people and have a large proportion of staff who are trained in B.S.L. (British Sign language) and Deaf Culture.

"Sedgemoor is really good, it will sort most of your problems out, you will make lots of new friends and school is OK as well."

Karl

"I found your organisation enormously impressive. The high quality of the provision for children and the enthusiasm of your staff is a credit to your organisation."
