Application	H03-0353-22
Location	EAST REACH FARM MAIN ROAD HOP POLE PE11 3HJ
Proposal	Proposed 4 bed detached dwelling

Name	Sue Armour
Address	Environmental Protection Officer SHDC
Date Submitted	05-05-22
For/Against	Comments

I have reviewed the screening assessment and associated photos and recommend the following condition be applied at this location:
In the event that contamination is found at any time when carrying out the approved development that was not previously identified it must be reported immediately to the Local Planning Authority (LPA). An investigation and risk assessment must be undertaken in accordance with details to be agreed with the LPA. Where remediation is necessary, a remediation scheme must be submitted to and approved in writing by the LPA. Following completion of measures identified in the approved remediation scheme a verification report shall be submitted to and approved by the LPA.

No deviation shall be made from this scheme without the express written agreement of the LPA. If during redevelopment contamination not previously considered is identified, then the LPA shall be notified immediately and no further work shall be carried out until a method statement detailing a scheme for dealing with the suspected contamination has been submitted to and agreed in writing by the LPA.
