PROPOSED EXTENSIONS AND ALTERATIONS AT 40 MALTING LANE DONINGTON FOR MR & MRS L GIDDINGS

DO NOT SCALE FROM THIS DRAWING

This drawing is the property of Julian Warrick Consultancy and is protected by the Copyright Designs and Patents Act 1988. The contents may not be used for any purpose other than that for which they were prepared and may not be copied, lent or disclosed to any unauthorised person or company without the prior consent in writing of Julian Warrick Consultancy. Any breach will render the offender liable to prosecution and claims for damages. Please check all dimensions on site before work starts or materials are ordered. Any discrepancies are to be reported to Julian Warrick Consultancy before work proceeds. Figured dimensions are to be taken in preference to scaled. All dimensions are in millimetres unless otherwise stated. Please read this drawing in conjunction with all relevant Structural Engineer's drawings and specifications. Any proposed variations to the approved drawings must be submitted to the Building Control Officer for approval before work proceeds. Please note that the Building Control Officer may require additional construction information to that shown on this drawing. Please ensure that all necessary consents are obtained before work proceeds. Please ensure that all contractors visiting site are aware of the need to work safely and to be responsible for the safety of others affected by their work. Please ensure that adequate insurance cover is in place before work proceeds. Please ensure that adequate temporary bracing is installed where necessary to ensure the stability of the structure during construction. Please ensure that adequate fire precautions are taken during construction. Please ensure that adequate means of escape in case of fire are provided for the building during occupation. Please ensure that adequate ventilation is provided to prevent the build up of hazardous fumes. Please ensure that adequate precautions are taken when working with asbestos. Please ensure that adequate precautions are taken to prevent the ingress of water into the building during construction. Please ensure that adequate measures are taken to protect the health and safety of the occupants of adjoining properties during demolition and construction. Please ensure that adequate provision is made for the disposal of foul and surface water drainage. Please ensure that adequate provision is made for the disposal of rubbish and debris. Please ensure that adequate provision is made for the storage of building materials. Please ensure that adequate provision is made for the parking of vehicles. Please ensure that adequate provision is made for the unloading of vehicles. Please ensure that adequate provision is made for the turning of vehicles. Please ensure that adequate provision is made for the loading
