Application	H04-0273-22
Location	Land to the north of North Ing Drove Donington Spalding
Proposal	Details of final report in connection with archaeological investigation (Condition 34 of H04-0823-17)

Name	Ian Marshman - Historic Environment Officer
Address	Historic Environment Officer Lincolnshire County Council Lancaster House LN1 1XX
Date Submitted	29-03-22
For/Against	Comments

This office cannot recommend discharge of Condition 34 of permission H04-0823-17 as the information provided does not meet the requirements of the condition.

Two documents have been submitted but neither appears to be the final report on the archaeological work undertaken here. It would appear that a number of post-excavation tables and plans and the original WSI have been grouped together and submitted.

The final report should be produced in accordance with the guidelines for all reports on archaeological fieldwork undertaken in the county set out in the Lincolnshire Archaeological Handbook (Chapter 15). This includes requirements on the structure and content of reports, and how findings should be presented. The report should be laid out with the following sections:

a) cover page;
b) list of contents, figures, tables, etc;
c) non-technical summary;
d) introduction;
e) planning background;
f) archaeological and historical background;
g) methodology;
h) results;
i) discussion;
j) conclusion;
k) OASIS cover sheet."

Condition 34 also cannot be discharged at this time as the material and paper archive has not yet been deposited with an appropriate archaeological archive (The Collection museum in Lincoln), as required by the condition, in accordance with the NPPF paragraph 205.

If the developer requires any assistance regarding the content or format of the final report they should contact Historic Environment Officer Jan Allen (jan.allen@lincolnshire.gov.uk), who has been responsible for monitoring the archaeological work undertaken for Viking Link within the areas of ELDC and SHDC on behalf of Lincolnshire County Council as the archaeological advisor to the local planning authorities.
