1990, or a dependent of such a person residing with him, or a widow or widower of such a person.

Reason: The site is in a rural area where it is the policy of the Local Planning Authority not to permit residential development except in the interests of agriculture or where related to the use of the land. The circumstances of this case relate to an agricultural need, and permission is therefore confined to it.

5 Within 6 months of the date of the occupation of the dwelling hereby permitted the existing dwelling on the site (as shown on the submitted plans) shall be demolished and rubble cleared from the site.

Reason: The site is in a rural area where it is the policy of the Local Planning Authority not normally to permit additional residential development. The proposed development is a replacement dwelling and this condition is imposed as it is not considered that a departure from that policy is warranted.

6 Before the development hereby permitted is commenced details of the type and colour of the materials to be used for external walls and roofs shall be submitted to and approved in writing by the Local Planning Authority.

Reason: To ensure that the external appearance of the proposed development harmonises with existing buildings in the area.

The applicant is reminded that separate notification to the Council is required under Section 80 of the Building Act 1984 prior to any demolition and that Building Control Services should therefore be advised at the appropriate time.
