Description of Proposed Works

Please describe the proposed works

I am aware that adhering to the 3 square meter rule can help avoid planning permission for a porch, however it makes sense to go a little bit larger due to the overall cost of the project. This will also allow space for insulated walls and a well-insulated roof which will improve my overall home's UV value. In addition, I will add a downstairs toilet. I will finish the exterior in matching or similar bricks but would like to apply for permission to render the Porch and ground level area as an option if permission is required. The roof will match existing and sloping to match existing hip roof using Peg tiles.
