---

Dear Christopher,

We know this application is going to committee and we would like to point out some concerns raised regarding the access to the site to make it clear before the meeting.

The existing access gates and brick piers are to be removed to make it a wider and clearer access for all vehicles that enter the development.

The new access width will be minimum 4.1m wide which is a highway acceptable standard.

No new gates or brick piers will be reintroduced.

We have read and understood all highways comments and conditions. Please note the new private roadway has been designed and can accommodate all emergency vehicles and parking for all properties.

The refuse and recycling will be via private collection.

If you have any further questions please do not hesitate to contact me.

Regards  
Sarah
