Post Office 12 High Street
Donington SPALDING PE11 4TA

Project;
Alterations to shop frontage. Retrospective application.
Including new door, glazing and security shutters.

The shutters are intrinsically linked to post office operations and their security. Without such security measures, the post office sustainability would be under question. The Post Office is an essential service in such villages as is the convenience store. Its central location provides access to all. It also provides an additional incidental revenue stream to Budgens convenience store and via-versa.
Both services, Budgen's convenience store and Post Office work very well together in providing local villages with the services and support required.

Elevations are shown as faceing the direction labeled. NOT from the direction of the viewing eye. Third angle projection.
