CASE OFFICER ASSESSMENT

Proposal

This application seeks to discharge conditions 7 (Construction Environmental Management Plan), 9 (Construction Traffic Management Plan and Access Route), 19 (Drainage Facilities), 24 (Treatment of Contaminated Material) and 29 (Surface Water Drainage Scheme) of planning permission H04-0823-17 in relation to the underground DC cable element of the Viking Link project. Details relating to the AC cable works will be submitted at a later date by a different contractor.

History

H04-0823-17 - Approved 8/10/18

Works to facilitate the Viking Link electrical interconnector with an approximate capacity of 1400 megawatts (MW) extending from Revsing, Jutland,

(Denmark) to Bicker Fen, Lincolnshire (UK) comprising:

- Installation of two (2) subsea high voltage direct current (DC) cables between Mean Low Water Springs (MLWS) and landfall at Boygrift in East Lindsey;
- Installation of two (2) onshore DC cables between the landfall at Boygrift and the converter station at North Ing Drove in South Holland;
- Construction of associated Temporary Construction Compounds (TCC) and Temporary Works Areas (TWA) and temporary vehicle access arrangements required for DC and AC cable installation;
- Erection of converter station buildings together with the formation of internal roads, permanent access road from the A52, erection of security fencing, formation of landscaping with associated temporary construction compounds;
- Installation of up to six (6) onshore high voltage alternating current (AC) cables between the converter station at North Ing Drove and the existing Bicker Fen 400 kilovolt (400kV) Substation owned and operated by National Grid Electricity Transmission Plc (NGET);
- Installation of link pillars along the AC cable route for inspection and maintenance purposes, these will be contained within fenced areas;
- Installation of all associated drainage mitigation works; and
- Installation of fibre-optic cable(s) with the high voltage AC and DC cables

H04-0323-20 - Details relating to Condition 18 (Point of contact for local residents and local business for any queries or complaints relating to noise generated by the construction and/or operation of the Development) of H04-0823-17 - Approved 6 May 2020.

Given the scale of the development, planning permission was also granted by East Lindsey DC, Boston BC and North Kesteven DC. Similar conditions were imposed by those authorities and the same documents have been submitted to support condition compliance applications to all authorities

Consultation Responses

LCC Local Highway & Lead Local Flood Authority

The submitted details that relate to highways and to surface water flood risk are satisfactory and accordingly does not object.

Black Sluice IDB

No comments as the applicant has complied with the Board's requirements.

SHDC Environmental Protection

No objection.

Planning Considerations

Whether the submitted documents contain sufficient information in order to satisfy the requirements of conditions 7, 9, 19, 24 and 29. This is a comprehensive set of documents. Consultees are satisfied with the contents.

Conclusion

The submitted documents contain the required information in order to satisfy conditions 7, 9, 19, 24 and 29 in relation to the DC underground cabling.

Additional Considerations

Public Sector Equality Duty

In making this decision the Authority must have regard to the public sector equality duty (PSED) under s.149 of the Equalities Act. This means that the Council must have due regard to the need (in discharging its functions) to:

A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act

B. Advance equality of opportunity between people who share a protected characteristic and those who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s).

C. Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.

The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s.149. It is only one factor that needs to be considered, and may be balanced against other relevant factors.

It is not considered that the recommendation in this case will have a disproportionately adverse impact on a protected characteristic.

Human Rights

In making a decision, the Authority should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as South Holland District Council to act in a manner that is incompatible with the European Convention on Human Rights. The Authority is referred specifically to Article 8 (right to respect for private and family life) and Article 1 of the First Protocol (protection of property).

It is not considered that the recommendation in this case interferes with local residents' right to respect for their private and family life, home and correspondence, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general public interest and the recommendation is considered to be a proportionate response to the submitted application based on the considerations set out in this report.
