Good afternoon Karolina,

Thank you for the information and correspondence regarding this matter.

I have reviewed the drawings again and fire hydrant provision for this site have been sufficiently met and achieved by the following :-

FH 19677 at Point A
FH 19844 at Point G

It is noted there are two Washouts installed at Points B and E that could be adopted as additional fire hydrants, but this would be an over provision for Fire Service requirements and unnecessary.

I have no concerns in terms of fire hydrant provisions for this residential development which are satisfactory.

Fire Safety colleagues have raised the objection on planning reference **H04-0517-24** so I have cc for them to consider approval to discharge this objection with SHDC planning,

Kind regards,

Peter

Good morning,

Hope you are well.
I've had an email from Amjutan where there is an objection in regards of fire hydrant. We have had this response from yourself please could you advise ?

Kind regards,

Karolina Janukeviciute
