Hi Tracey,

We have already sent amended details for Plot 5 under the other application reference, but yes all details relate to both plots.

The membrane to be used will be a heavy duty gravel membrane and the gravel will be laid to an appropriate depth to support motor vehicle traffic.

We have not been on site to check the depth of the existing gravel but our clients will be doing a professional job following construction of both dwellings.

Hope this helps.

Regards
Sarah

Thanks Bob,

Could you quickly confirm by e-mail whether these details apply to both plots 1 and 5?

To support the application, could you identify the type of membrane likely to be used?

Will the level of gravel be deeper than at present, or same depth?

Regards

Dear Planning

RESIDENTIAL DEVELOPMENT - ONE DWELLING (PLOT 1)
PLOT 1 WILLIAM CLOSE, DONINGTON, SPALDING
HUNTING LODGE COTTINGHAM LTD

With reference to the above and our recent email with Tracey Meachen please find attached our amended plan for your information including a planning amendment form.

This will allow the Chairman's Panel report to be produced.

Regards

Hannah
