I can confirm that the written scheme of archaeological investigation (WSI) submitted meets the requirements of this office in respect of Condition 6 of permission H04-0208-20. Condition 6 can therefore be discharged.

We look forward to the archaeological evaluation taking place and receiving a copy of the report in due course. As this evaluation is taking place post determination, depending on its results, it may be necessary to agree a mitigation strategy in order to protect or record archaeological remains that would be impacted by development. This would be agreed between the local planning authority, developer and ourselves with the work specified in an addendum to this WSI.
