Your Ref: H04-0578-15

Dear Tracey

In relation to the above planning application, please find attached an elevation showing the position of the Gas and Electricity Meter Boxes. Please note the soil and vent pipes are all internal and to be fitted with Durgo Valves (i.e. none will be visible externally).

Following the carrying out of a percolation test on site, it was established that a soakway will not be viable. Therefore the applicant is intending to discharge the rainwater into the Black Sluice IDB pipe which runs along the edge of the site, and is in the process of applying to the IDB for this permission.

If you have any queries, please don't hesitate to contact me.

Many Thanks.

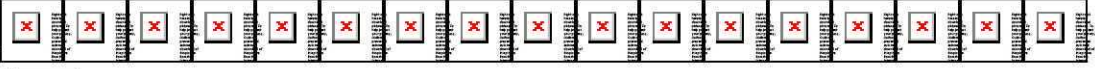

Kind Regards

Guy
