Subject: RE: Caythorpe house - Alarm box position and CCTV
Dear Adam
Thanks for the information you have supplied in order for me to offer pre-application advice for security devices at Caythorpe House. My advice is as follows:
1. The cameras proposed are well designed and compact and I can support the two cameras to either side of the rear wing (contains the long staircase window for clarification). It is better to avoid the principle front range (both front and side elevation of) if at all possible. Would it be possible to site a camera on your outbuilding instead to cover the front of the building? (or perhaps some other structure facing the front of your house - there was a shed or horse stable as I recall).
2. The alarm box is rather large - some 36 cm in height - I realise that these are meant to be seen as a deterrent but this is quite large and not very attractive - I have seen smaller plain steel boxes which we have allowed on other listed buildings.
I would recommend that you try and find an alternative location for a camera to cover the front of your house and also to seek an alternative alarm box (if you are in Spalding at all you will find the kind I mention on the grade II* listed Number One jewellers shop in Hall Place).
I trust this assists but please get back to me if there are any problems.
Regards
Liz Mayle
Conservation Officer
