Dear Sir

Erection of Aerial at Donington Telephone Exchange, Donington,
Spalding, Lincs.

I refer to your letter which was received on 14 December, 1992.

It is my opinion that four flowering cherry trees planted along the boundary fence with the adjoining footpath would be acceptable, subject to them growing to a reasonable height. I therefore enclose the necessary Condition Compliance forms for you to complete and return with plans showing the position where the flowering cherry trees will be planted and also details of their height on planting.

Erection of Aerial at Risegate Telephone Exchange, Risegate
Road, Gosberton, Spalding, Lincs.

I assume that the aerial will now be located between the telephone exchange and the boundary wall with the neighbouring coal yard. This will result in part of the antennae being screened from the adjoining dwelling by the exchange building. However, I do consider that the planting of a flowering cherry tree to the front of the building would be preferable so that it both softens the appearance of the exchange building and also screens partially the proposed aerial.

Yours faithfully
