I give six weeks' notice that I intend to carry out the work that I have described below to tree(s) that are not covered by a Tree Preservation Order but situated within a

Conservation Area. Please give the name of the Conservation Area here: - Donington (DLI10599).....

Please draw a sketch plan to show the location of the tree(s), either on the back of this form or on a separate sheet, then tell us...

Species of Tree	Tree ref. number or position on site	Details of the work you propose	Why you think this work is necessary	Proposed replacement tree(s)*
Walnut	REAR DRIVE AREA	Reduction of crown size by 50% to healthy, live wood	A number of large branches beginning to appear unsafe 'Stress fractures' on some heavy, large branches Loss of bark from limbs and trunk A number of dead or unhealthy branches Diseased/dead wood falling from tree Large weight and horizontal growth of some branches putting undue stress on trunk Possibility of a number of large branches causing damage to house	

(Separate sheets can be attached if more room is needed)

* If you want to cut down a tree we will usually require you to replace it. Normally we will ask you to plant a young tree (at least 1.5 metres high) of the same species that you have cut down, as near to where the original tree was located as is practicable. Sometimes a comparable species may be allowed instead of the same species. Please give details of the tree(s) you would like to plant as a replacement.
