After taking advice from a local Ecology Consultant this application for external lighting will not affect any current biodiversity on the site. This application is a continuation of a permission following planning permission for new loading bays and external works under reference H05-0616-23 dated 3rd October 2023.

The previous application incorporated tree and hedge planting together with wildflower meadow areas along the Western boundary of the site.

The infrastructure for the poles and cables are already installed as part of the external work program under the previous application.
