Condition 15 – Waste Strategy

General waste and recycling are to be stored in each resident's property until collection day. Refuse or recycling sacks will be taken kerb side for collection on bin day by 6am, in line with the Waste Guidance on South Holland District Councils website.

- Household waste to be stored in black bin sacks
- Recycling to be stored in green bin sacks (or any other clear colour, not including black)

It is noted that residents will be provided with 52 black sacks and 80 green sacks per annum. Residents requiring additional refuse sacks will have to purchase these separately.
