Silver Birch ( <i>Betula pendula</i> )	H	30% reduction made sympathetically back to existing growth points	As per picture it is too tall and wide	n/a

\* If you want to cut down a tree we will usually require you to replace it. Normally we will ask you to plant a young tree (at least 1.5 metres high) of the same species that you have cut down, as near to where the original tree was located as is practicable. Sometimes a comparable species may be allowed instead of the same species. Please give details of the tree(s) you would like to plant as a replacement.
