DO NOT SCALE FROM THIS DRAWING

This drawing is the property of the Architect and is subject to Copyright. It must not be loaned, copied or passed to any third party without the consent of the Architect. The Architect does not hold himself responsible for any alterations to the drawing information contained on this drawing that are not based upon the instructions issued in writing by him. No responsibility can be accepted for dimensions scaled from this drawing. Any discrepancies are to be reported to the Architect before any work is put in hand. The Architect has prepared this drawing to assist the Client in obtaining Planning Permission and Building Regulation Approval and to enable a Contractor to tender for the work shown. The Contractor is to visit the site and be responsible for taking all dimensions necessary and shall be entirely responsible for the construction of the works in accordance with the Building Regulations and any other statutory requirements. The Contractor is to give all notices and pay all fees required by Statutory Undertakers in connection with the works. The Contractor is to be responsible for the adequacy of all temporary works and shoring necessary for the stability of the works and the safety of all persons employed in the construction process. The Contractor is to be responsible for ensuring that adequate insurance cover is in force before any work starts on site. All materials and workmanship are to be in accordance with the appropriate British Standard Specification or BBA certificate of practice. Any proprietary materials specified are to be installed strictly in accordance with the manufacturer's instructions. The Contractor is to ensure that adequate ventilation is provided to prevent the build up of condensation in roof voids, timber framed walls and any other unventilated spaces in accordance with Building Regulations. All new drainage work is to be inspected and approved by the Local Authority Building Control Surveyor before any of the work is covered up. The Contractor is to ensure adequate fire precautions are taken during the course of the works and that adequate means of escape are provided at all times. The Contractor is to comply with the Construction (Design and Management) Regulations as implemented CDM coordinator for the project. The Contractor is to ensure adequate welfare facilities are provided for all workers employed on the site.

Work that may not specifically be known to the Architect at the time of tender but which may be uncovered during the course of the works is to be notified to the Architect immediately it is discovered so that he may issue instructions. Party Wall etc. Act 1996: when building or close proximity to adjoining neighbour's boundaries. Where work is to be carried out to a party wall, special foundations or party wall agreement may be required. The Contractor must be fully aware of his responsibilities under the Act and ensure that adjoining owners are notified by the correct procedure before any work is commenced. Failure to do so may result in the work being delayed or stopped altogether by the adjoining owner
