TOWN AND COUNTRY PLANNING ACT 1990

FULL

Reference: H05-0940-21 **Date of Decision:** 13th January 2022

Applicant: Mr P Busby
9 Eastgate Gardens
Fleet Hargate
Spalding
PE12 8NP

Location: Mill Bank Holbeach Spalding

Description: Proposed conversion into single dwelling

South Holland District Council hereby give notice that permission has been GRANTED (or equivalent) subject to the following condition(s):

1 The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason: As required by Section 91 of the Town and Country Planning Act 1990 as amended by the Planning and Compulsory Purchase Act 2004.

2 The development hereby permitted shall be carried out in accordance with the following approved plans:
PD01 P1;
PD02 P1;
PD03 P1;
Preliminary Structural Report by SRC Ltd (Ref. 20621) dated May 2021;
Flood Risk Assessment by Ellingham Consulting Ltd (Ref. ECL0536/Andrew M Wright Ltd) dated July 2021;
Ecological Appraisal by Philip Parker Associates Ltd (Ref. P2021-75 R1 Final) dated 16 November 2021.

Reason: For the avoidance of doubt and in the interests of proper planning.

3 Before the commencement of any work upon the building, elevational and cross sectional plans of the building at a scale of not less than 1:100 illustrating the extent of any proposed demolition and reconstruction including the proposed replacement of any of the existing roof structure and roof timbers shall be submitted to and approved in writing by the Local Planning Authority. No works of demolition/reconstruction or replacement of the existing fabric of the building shall be undertaken other than those works so approved.

Note: You are advised that should it become necessary during conversion to undertake works beyond those approved by this condition then this planning permission may become invalid and the development treated as the erection of a new building which will necessitate the submission of a planning application for such. That application will be considered under relevant local planning policies and may not be acceptable.

Reason: Planning permission is only granted for conversion of the existing building by virtue of the architectural and historic quality of the building. Significant alteration and reconstruction would be tantamount to the erection of a new dwelling in the open countryside which would be contrary to national guidance contained in Sections 5, 12 and 16 of the National Planning Policy Framework, 2021 and Policies 1 and 23 of the South East Lincolnshire Local Plan, 2019.
This Condition is imposed in accordance with Policies 1 and 23 of the South East Lincolnshire Local Plan, 2019.

4 All new and replacement brickwork utilised in carrying out the development hereby permitted shall match as closely as possible that of the principal existing building on the site in terms of the type of brick(s), mortar mix and method of bonding.

Reason: In the interests of the architectural and visual integrity of the overall development and the visual amenity of the area in which it is set.
This Condition is imposed in accordance with Policies 2, 3 and 23 of the South East Lincolnshire Local Plan, 2019.

5 Prior to installation, details of the roof tiles to be used for the roof of the development hereby permitted shall be submitted to and approved in writing by the Local Planning Authority, and all tiles used in the development shall conform to the details so approved.

Reason: To ensure that the Local Planning Authority retains control over the external materials of construction of the development in the interests of the character and appearance of the development and the visual amenity of the area in which it is set.
This Condition is imposed in accordance with Policies 2, 3 and 23 of the South East Lincolnshire Local Plan, 2019.

6 All new window frames, glazing bars and external doors/frames shall be of timber construction.

Reason: In the interests of the architectural composition and appearance of the development and the visual amenity of the area in which it is set.
This Condition is imposed in accordance with Policies 2 and 3 of the South East Lincolnshire Local Plan, 2019.

DC_FINAL_DECISION - ODB:14

7 The rainwater goods utilised in the development hereby permitted shall be coloured black and of metal construction and thereafter so maintained.

Reason: In the interests of the appearance of the development and the visual amenity of the area in which it is set.
This Condition is imposed in accordance with Policies 2, 3 and 23 of the South East Lincolnshire Local Plan, 2019.

8 The guttering to the development hereby permitted shall be fixed to the external walls by means of gutter spikes/rise and fall brackets.

Reason: In the interests of the architectural composition and appearance of the development and the visual amenity of the area in which it is set.
This Condition is imposed in accordance with Policies 2, 3 and 23 of the South East Lincolnshire Local Plan, 2019.

9 Prior to works commencing on the building, the approval of the Local Planning Authority is required to a scheme of landscaping and tree planting for the site (including screening of bin collection points) indicating, inter alia, the number, species, heights on planting and positions of all the trees, together with details of post-planting maintenance. Such scheme as is approved by the Local Planning Authority shall be carried out and completed in its entirety during the first planting season following practical completion of the development. All trees, shrubs and bushes shall be maintained by the owner or owners of the land on which they are situated for the period of five years beginning with the date of completion of the scheme and during that period all losses shall be made good as and when necessary.

NOTE: The submitted landscaping proposals shall demonstrate that Biodiversity Net Gain will be achieved on site, using the Biodiversity Metric 3.0 (or any successor).

Reason: To ensure that the development is adequately landscaped, in the interests of its visual amenity and that of the area in which it is set, and that Biodiversity Net Gain will be achieved.
This Condition is imposed in accordance with Policies 2, 3 and 28 of the South East Lincolnshire Local Plan, 2019 and the Environment Act 2021.

10 Before any works are commenced on the building further ecological surveys shall be carried out to determine the presence, or otherwise, of bats upon the site in accordance with details within the Ecological Appraisal and the results of such surveys shall be submitted to the Local Planning Authority. A working design, method and timetable to mitigate any harm to the species involved shall be submitted to and approved in writing in accordance with details within the Ecological Appraisal before any works are commenced on the building and thereafter be carried out in accordance with the approved details prior to occupation.

Reason: In the interest of nature conservation and because bats are a protected species.
This Condition is imposed in accordance with national guidance contained in Section 15 of the National Planning Policy Framework, 2021.

11 At least 1 month before any work is commenced on the building a pole mounted Barn Owl

nest box shall be erected on site in accordance with The Barn Owl Trust guidelines. It shall thereafter be retained on site and be permanently made available for use for that purpose.

Reason: To ensure the protection of Barn Owls in accordance with the provisions of the Wildlife & Countryside Act, 1981.
This condition is imposed in accordance with advice within the National Planning Policy Framework, 2021.

12 The development hereby permitted shall be carried out in accordance with the measures set out in the Flood Risk Assessment forming part of this planning application, unless otherwise agreed in writing by the Local Planning Authority.

Reason: To ensure that the development does not increase the risk of flooding or be at risk of flooding.
This Condition is imposed in accordance with Policies 3 and 4 of the South East Lincolnshire Local Plan, 2019 and national guidance contained in Section 14 of the National Planning Policy Framework, 2021.

13 The water consumption of the dwelling hereby permitted should not exceed the requirement of 110 litres per person per day (as set out as the optional requirement in Part G of the Building Regulations 2010 and the South East Lincolnshire Local Plan, 2019). The person carrying out the work must inform the Building Control Body that this duty applies. A notice confirming the requirement for the water consumption has been met shall be submitted to the Building Control Body and Local Planning Authority, no later than five days after the completion of the dwelling.

Reason: To protect the quality and quantity of water resources available to the district.
This Condition is imposed in accordance with Policy 31 of the South East Lincolnshire Local Plan, 2019.

14 The development hereby permitted shall not be commenced until a scheme to deal with any contamination of land or pollution of controlled waters has been submitted to and approved in writing by the Local Planning Authority (LPA).

The scheme shall include all of the following measures unless the LPA dispenses with any such requirement in writing:
i) A preliminary risk assessment (desk study) shall be carried out to identify and evaluate all potential sources of contamination and the impacts on land and/or controlled waters, relevant to the site. The desk-top study shall establish a 'conceptual site model' and identify all plausible pollutant linkages. Furthermore, the assessment shall set objectives for intrusive site investigation works/Quantitative Risk Assessment (or state if none required). A full copy of the desk-top study and a non-technical summary shall be submitted to the LPA without delay upon completion.
ii) If identified as being required following the completion of the desk-top study, an exploratory site investigation shall be carried out to fully and effectively characterise the nature and extent of any land contamination and/or pollution of controlled waters. It shall specifically include a risk assessment that adopts the Source-Pathway-Receptor principle, in order that any potential risks are adequately assessed taking into account the sites existing status and proposed end use. A full copy of the site investigation and findings

DC_FINAL_DECISION - ODB:14

shall be forwarded to the LPA without delay upon completion.
iii) Thereafter, a written method statement detailing the remediation strategy for land contamination and/or pollution of controlled waters affecting the site and a timetable for their completion shall be submitted to and approved in writing by the LPA. This shall include details of the proposed verification plan including compliance criteria and monitoring details.

No deviation shall be made from this scheme without the express written agreement of the LPA. If during redevelopment contamination not previously considered is identified, then the LPA shall be notified immediately and no further work shall be carried out until a method statement detailing a scheme for dealing with the suspected contamination has been submitted to and agreed in writing by the LPA.

Reason: To assess whether the site is polluted and to address any pollution to ensure a satisfactory development. This issue is integral to the development and therefore full details need to be finalised prior to the commencement of works.
This Condition is imposed in accordance with Policy 30 of the South East Lincolnshire Local Plan, 2019.

15 If contamination of land and/or pollution of controlled waters has been identified as a result of investigation undertaken in accordance with Condition 14 above and remediation is required, a full copy of a verification report shall be submitted to, and approved in writing by, the Local Planning Authority prior to the first occupation of the development. The report shall provide verification that the required works regarding contamination have been carried out in accordance with the approved Method Statement(s). Post-remediation sampling and monitoring results shall be included in the closure report to demonstrate that the required remediation objectives and criteria has been fully met.

Note: The applicant is advised that the phased risk assessment required by the Contaminated Land Scheme Condition should be carried out in accordance with the procedural guidance of the Environmental Protection Act 1990 Part 11A.

Reason: To ensure the satisfactory remediation of contaminated land and/or waters.
This Condition is imposed in accordance with Condition 30 of the South East Lincolnshire Local Plan, 2019.

Notes:

The Local Planning Authority has acted positively and proactively in determining this application by assessing it against all material considerations, including national guidance, planning policies and representations that have been received during the public consultation exercise, and subsequently determining to grant planning permission.

This decision notice, the relevant accompanying report and the determined plans can be viewed online at http://planning.sholland.gov.uk/OcellaWeb/planningSearch

The permitted development requires the formation of a new/amended vehicular access. These works will require approval from the Highway Authority in accordance with Section 184 of the Highways Act. The works should be constructed in accordance with the

Authority's specification that is current at the time of construction. Relocation of existing apparatus, underground services or street furniture will be the responsibility of the applicant, prior to application. For approval and specification details, please contact vehiclecrossings@lincolnshire.gov.uk

Please contact the Lincolnshire County Council Streetworks and Permitting Team on 01522 782070 to discuss any proposed statutory utility connections and any other works which will be required within the public highway in association with the development permitted under this Consent. This will enable Lincolnshire County Council to assist in the coordination and timings of these works.

Phil Norman
Planning Manager
South Holland District Council

BUILDING REGULATIONS:
This decision refers only to planning permission as granted under the Town and Country Planning Act 1990. The works that you are proposing may also require Building Regulations and this planning permission does not give authority under Building Regulations to commence work. Please contact the Building Control section for further information on 01775 764557 or bcadmin@sholland.gov.uk

RIGHTS OF APPEAL

Appeals to the Secretary of State

If you are aggrieved by the decision of your Local Planning Authority to refuse permission for the proposed development or grant consent subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990 or Section 20 of the Planning (Listed Building and Conservation Areas) Act 1990.

Timescales for appealing

The deadlines for appeals are calculated from the **date of decision** and are as follows for the types of applications below:

12 Weeks	6 Months	8 Weeks
Householder Applications	Planning Permission	Consent to Display Adverts
Minor Commercial Development	Listed Building Consent	
Agricultural Determinations	Other Prior Approval Applications	
Householder Prior Approval Applications		

If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planning inspectorate.gov.uk) at least 10 days before submitting the appeal. Further details are on GOV.UK.

Enforcement Notices

If an enforcement notice was served prior to the planning application being determined then the deadline for appealing is 28 days from the date of the **planning refusal**.

If an enforcement notice is served after the planning application is determined then the deadline for appealing is 28 days from the date of the **enforcement notice** OR **the timescales stated above for each application type** from the date of the planning refusal - whichever is sooner.

Appeals can be made online at: https://www.gov.uk/planning-inspectorate. If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.

The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to the Secretary of State that the

Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under the order.

Purchase Notices

If either the Local Planning Authority or the Secretary of State refuses permission to develop land or grant it subject to conditions the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of the Part VI of the Town and Country Planning Act 1990 or Section 32 of the Planning (Listed Building and Conservation Areas) Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference of the application to him.

These circumstances are set out in Section 114 and related provisions of the Town and Country Planning Act 1990 and Section 27 of the Planning (Listed Building and Conservation Areas) Act 1990.
