To Whom It May Concern,

I am writing to request permission to undertake tree works within a conservation area on behalf of my client, Mr. Paul Kieran.

Site Address:

St Paul's, Church End, Fleet, PE12 8NQ

The proposed work involves a line of four Silver Birch trees and one Oak tree. The scope of work is as follows:

- **General Line Clearance:** We propose a 30–40% reduction of the tree canopies in accordance with British Standards (BS3998:2010). All cuts will be made back to suitable growth points to maintain tree health and form.
- **Specific Works to Multi-Stemmed Silver Birch:** One of the Silver Birches is multi-stemmed. To mitigate wind sail and reduce the risk of tearing at the stem union, we intend to carry out additional selective reduction to further stabilise the structure .

All works will be carried out to the highest professional standards, with care to preserve the health and longevity of the trees and the character of the conservation area.

Please see map attached for reference where the trees are located at the property.

Should you require further details, please do not hesitate to contact me.

Kind regards

Rhys Woods

Director
