CASE OFFICER ASSESSMENT

Proposal

The site has the benefit of outline planning permission for a replacement dwelling (ref. H05-0568-16). Reserved matters approval is now sought for a 5 bed house.

Site Description

The site is located on the western side of Bens Gate. It was formerly occupied by a house, which has now been demolished. A number of trees are located along the northern boundary. There are no immediate neighbours.

Consultation Responses

LCC Highways/SUDs - No objections

South Holland Internal Drainage Board - Request drainage strategy.

Planning History

H05-0568-16 - O/A - Replacement dwelling - Granted 2 November 2016.

Planning Considerations

The site has the benefit of outline planning permission for a replacement dwelling (ref. H05-0568-16). The principle of a replacement dwelling upon the site has therefore been established.

Reserved matters approval is sought for a 5 bed house. Its design is traditional and is based on a Victorian farm/manor house. It would be constructed in Terca Olde Farndale Multi bricks. The main roof would be clay pantiles and rear slate. roof. The proposal reflects traditional vernacular and is considered acceptable in terms of design/appearance.

In terms of amenity, there are no immediate neighbours. It is considered that the proposal would not materially harm the amenity of nearby residents in terms of overlooking, lack of privacy, overshadowing, overbearing effect, noise and disturbance, etc.

The County Highways Authority does not wish to restrict the grant of permission on highway safety grounds.

The site is within Flood Risk Zone 3 on the Environment Agency Maps. However, the South Holland Strategic Flood Risk Assessment designates the site as no hazard. The proposal therefore satisfies the sequential test. A condition was imposed at the outline stage concerning finished floor levels.

Foul water would be disposed of to a private sewage treatment plant and drainage field. Surface water would be disposed of via soakaways.

Conclusion

That the reserved matters relating to the layout, scale, external appearance, access, landscaping, boundary treatment and drainage be approved.

Additional Considerations

Public Sector Equality Duty

In making this decision the Authority must have regard to the public sector equality duty (PSED) under s.149 of the Equalities Act. This means that the Council must have due regard to the need (in discharging its functions) to:

A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act

B. Advance equality of opportunity between people who share a protected characteristic and those

who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s).

C. Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.

The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s.149. It is only one factor that needs to be considered, and may be balanced against other relevant factors.

It is not considered that the recommendation in this case will have a disproportionately adverse impact on a protected characteristic.

Human Rights

In making a decision, the Authority should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as South Holland District Council to act in a manner that is incompatible with the European Convention on Human Rights. The Authority is referred specifically to Article 8 (right to respect for private and family life) and Article 1 of the First Protocol (protection of property).

It is not considered that the recommendation in this case interferes with local residents' right to respect for their private and family life, home and correspondence, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general public interest and the recommendation is considered to be a proportionate response to the submitted application based on the considerations set out in this report.
