IMPORTANT NOTES

Cosalt values customers. After you have made your investment, a first–class after-sales service is of paramount importance. We support the Parks and franchised dealers with a wide-ranging spares service, a central contact to appliance suppliers and mobile service teams. Before purchasing a Cosalt holiday home, however, it is important that you read these notes carefully. We want you to be clear about every detail of the purchase, so that you will be as excited and satisfied as all the other owners when you step into your superb new Cosalt holiday home for the first time.

1. In order for any Cosalt holiday home to be used, it needs to be correctly sited, have steps or other means of entry and be connected to services (an appropriate propane gas supply, mains electricity to suit the required wattage offtake, mains water at a pressure to suit the appliances and a sewage outlet).

2. All models, except those with a bath, can have the option of electric appliances in place of gas appliances, although some layout changes will probably be necessary.

3. Cosalt recommends that you do not use the product for residential occupancy. All Cosalt holiday homes are built to comply with many European & British Standards and all relevant Codes of Practice required by the National Caravan Council Certification Scheme and those endorsed by The British Holiday and Home Parks Association. These include the recommendation that caravan holiday homes should only be used for temporary holiday occupancy.

4. The sizes given are reasonably accurate shell measurements, but if your chosen pitch has size limitations or obstructions, you should consult with your Park Operator or Dealer to establish specific sizes.

5. Illustrations, photographs, descriptions, information and statements contained in this brochure and any other company literature, are intended only as a general guide. They are relevant to the product at the time of writing and production of the brochure / literature, but the company reserves the right to change any materials, fittings, sizes etc. at any time and without prior notice as supply, product development or legislation conditions demand.

6. The matching and lining-up of patterns on wallboards and fabrics is not possible because of the caravan design and methods of construction.

7. Some of the items photographed (some refrigerators, most microwaves, televisions, videos, hi-fi units, some soft furnishings for beds and general props) are for illustration purposes only. Please refer to your Park or Dealer if you need clarification.

8. All Cosalt holiday homes are built to meet the requirements of EN1647 for snow loading categories A & B provided that the caravan is sited as recommended by Cosalt.

9. A manufacturer's warranty is available to all purchasers within the UK subject to certain terms and conditions. The warranty can be viewed on the website www.cosalt-holiday-homes.co.uk or you can obtain a copy by sending a stamped/addressed envelope to Cosalt Holiday Homes Limited, Stoneferry, Hull, East Yorkshire HU8 8EH. For purchasers outside of the UK, please refer to your supplier for warranty details. The warranty available is additional to and does not affect your statutory rights under consumer legislation.
