

You'll feel com a Cosalt

For over 30 years, Cosalt Holiday Homes, the Leisure Products Division of the Cosalt plc group of companies, has been creating award-winning caravan holiday homes. Every model is designed and constructed with the utmost care and consideration to create a carefree home, combining versatility and practicality with good looks and excellent value for money – you're about to find your dream holiday home in this latest Cosalt Collection.

Designed to cater for your every need with added technological & safety innovation

By carefully listening to customers, Cosalt has become the prime developer of new technology and fresh ideas, illustrating the relentless attention to detail now expected from a top manufacturing company.

You asked us to ensure that the overall living area is practical and user friendly. 'Don't design a beautiful, spacious lounge and then deprive us of space in the bedrooms, bathrooms and especially toilets' is a comment that we always receive from market research into design requirements. We have achieved that balance with an extra plus – just check out the number of models with two toilets (including three bedroom versions) and those with the toilet separate to the bathroom.

It's not just the things that you can readily see which make Cosalt special. Available for all models and standard on some, the innovative all-steel galvanized UDC chassis is unique to Cosalt. Also there are covers to protect the junction of pipe work under the floor. There are safety features designed into the

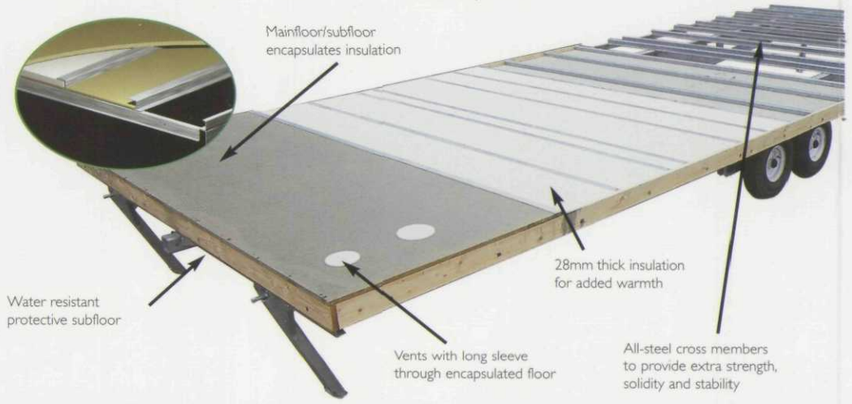

provision of gas and electricity services. With the leaf guard integral to the gutters and the pioneering use of extruded engineered polymer external cladding, these are just a few examples of how Cosalt can give you added value and a sound investment.

Optional Manufacturer's Special Packs – giving you the choice of even more comfort

For Baysdale, Albany, Carlton and Madeira there is a choice of add-on Manufacturer's Special Packs. These allow you to enhance mainly the chassis, heating and insulation specification of your holiday home to make the most of your leisure time.

As we sell thousands of these packs, we are able to both buy and manufacture with greater efficiency enabling us to share the benefits through exceptional value prices.

See Special Packs page for the details of the content and availability for all the packs.
