Lucerne

The impressive LUCERNE combines traditional refinement with modern style and elegant furnishings. This exceptional model is a full 4 metres (13ft 2in) wide and benefits from vaulted ceilings in the lounge, dining and kitchen areas.

In the spacious open plan lounge the realistic coal effect electric fire set in an attractive stone-effect fireplace, the fashionable suite incorporating a fold out sofa bed, attractive display units and tastefully co-ordinated soft furnishings create an interior with an inviting blend of luxury and style.

The extra-wide LUCERNE has a kitchen and dining room of truly domestic proportions featuring elegant furniture in a modern design. The kitchen plan is both novel and practical featuring an eye-level oven, separate hob, extractor hood and sink top in stainless steel or co-ordinating finishes and includes an integrated fridge-freezer, microwave compartment and a removable cabinet fascia to facilitate the subsequent installation of a washing machine or dishwasher if required.

Both bedrooms feature domestic width divan beds in a quality damask cover and are exceptionally well furnished with handsome wardrobes, bed-head cupboards, drawer units and mirrors and matching headboards and drapes. The master bedroom has its own dedicated en-suite facilities with shower, toilet and pedestal basin whilst the spacious main bathroom features an attractive corner bath arrangement.

With its weather-board style aluminium exterior cladding and moulded front gable detail, deep bay window and patio door the Lucerne will stand out in any location. The attractive pitched tile effect roof provides space for a full 150mm (6in) of fibreglass insulation and with increased insulation in its thicker section walls and underfloor combined with central heating and PVC-u double glazing as standard features the LUCERNE is truly a first choice for your all year round second home.
